

I am totally against what the CBC is trying to do for our privacy. They should not be allowed to harrass people by calling over and over again when you are not even interested. If I was interested in a product or service I would call them, and I prefer it to be that way. Otherwise it is an invasion of our privacy!! Please don't let this happen. Our home has been much more peaceful since we signed the Do NOT CALL list. Keep it that way!!
